Exhibitor & Conference Registration Process

Register as an Exhibitor

You are now able to register online. To register online, please go to greatlakesconnect.org/exhibitor and complete the form and submit. This replaces our previous PDF Exhibitor Form process

Conference Registration

All Exhibitors must register all attendees regardless of booth selection made. The following method should be used to complete the registration process:

- On the greatlakesconnect.org home page, please select “**Register Now**” and complete the registration process

Note that the registration process is configured to accommodate the appropriate “complimentary” registration(s) appropriate for the booth option selected. If, for example, you choose the Standard Booth option and wish to register two individuals, you will have to register the second individual as a conference attendee.

If you have any registration questions, please contact Jeff Gavlinski: jeff@greatlakesconnect.org

Thank you for your continued support of Great Lakes Connect!
